Here at Small World we believe creativity is one of the most powerful tools available for turning young peoples lives around and a lot of our work is targeted at those in more difficult circumstances. We also believe in using creative ways to get young peoples voices heard and to improve community life over-all.

Use of the building for Small World activities includes access to a small computer suite, digital cameras, video equipment, CD and vinyl DJ resources, plus a wide variety of visual art equipment, as appropriate.

Please phone for details.

We advise parking at a nearby public car park and walking to the building as during office hours the area is quite busy

Small World was set up in 1999 by local volunteers and we are now a Registered Charity with Ltd Co status. We are based half way up Russell Street a short walk from the town centre in a building which houses our office and extensive workshop & performance space.

Activities are co-ordinated by a part time worker, who liaises with user groups and funders, and draws on a growing list of professional artists to provide a high quality experience for participants.

We run our own funded projects and we also organise and run projects for and in partnership with other organisations.

We are always looking to make contact with new groups, people interested in volunteering and artists to add to our database. Please contact us for information or send us your CV/portfolio.

Small World is also available to run community-based projects, from half-day consultation events to long term regular projects. Please note we only work in the wider Keighley area.
